- (1) Subject to section 99, a person may take water for domestic purposes, or for watering travelling stock, from a waterway.
- (2) Nothing in subsection (1) shall be construed as authorising a person to enter or remain on land to which the person does not otherwise have legal access.

11 Rights of owners or occupiers of land in contact with waterway to take water for certain purposes

Subject to section 14A, the owner or occupier of land on or immediately adjacent to which there is a waterway may take water from that waterway for:

- (a) the use of the owner or occupier or the owner's or occupier's family and employees, for domestic purposes on the land; or
- (b) drinking water for grazing stock on the land; or
- (c) irrigating a garden, not exceeding 0.5 ha, which is part of the land and used solely in connection with a dwelling.

12 Ownership of bed and banks of waterway forming boundary of land

- (1) Where a waterway forms the boundary of land which is alienated by the Crown and that boundary is not a boundary surveyed for the purposes of the registration of the title to the land under the *Land*

Title Act 2000, the bed and banks of the waterway, to the extent, if any, that they were not the property of the Crown immediately before the commencement of this section are, by virtue of this section, acquired by and vested in the Territory.

- (2) In a grant or lease of land made after the commencement of this section, the bed and banks of a waterway forming the boundary of the land shall remain the property of the Territory except to the extent that they are contained within the boundaries of the land surveyed for the purposes of the registration of the title to the land under the *Land Title Act 2000*.

13 Rights of owner or occupier of adjacent land over banks of boundary waterway

The owner or occupier of land immediately adjacent to the banks of a waterway, which banks are the property of the Territory, has, subject to this Act, the *Soil Conservation and Land Utilisation Act 1969* and section 79 of the *Pastoral Land 1992*, the right to access for the owner or occupier or the owner's or occupier's family and employees, and for the owner's or occupier's stock, to and over those banks.

14 Right of owners of overlying land to take groundwater for certain purposes

Subject to sections 14A and 70, the owner or occupier of land may take groundwater from beneath the land for:

- (a) the use of the owner or occupier or the owner's or occupier's family and employees, for domestic purposes on the land; or
- (b) drinking water for grazing stock on the land; or
- (c) irrigating a garden, not exceeding 0.5 ha, which is part of the land and used solely in connection with a dwelling.

14A Restricted Water Extraction Area declaration

- (1) The Minister may, by *Gazette* notice, declare an area of land to be an area where the right to take water under section 11 or 14 is restricted when the land is subdivided or consolidated.
- (2) Before making the declaration, the Minister must be satisfied it is necessary to restrict taking of water from waterways or from groundwater in the area to:
 - (a) protect environmental or cultural values of water in the area; or

- (b) ensure the ongoing supply of water to persons with a right to take water under this Part in the area.
- (3) For subsection (2), the Minister must take into account the following:
 - (a) the characteristics of waterways and groundwater in the area;
 - (b) the amount of water allocated under water extraction licences in the area;
 - (c) the amount of water permitted to be taken in the area in accordance with a declaration under section 44(8) or 47(1);
 - (d) the amount of water taken each year by owners and occupiers of land in the area under sections 11 and 14;
 - (e) availability of water in the area;
 - (f) any water allocation plan applying to the area;
 - (g) existing demand and likely future demand for water for purposes mentioned in sections 11 and 14 in the area;
 - (h) the provisions of any agreement made by or on behalf of the Territory with a State concerning the sharing of water;
 - (i) other factors the Minister considers should be taken into account.
- (4) A declaration under subsection (1) must:
 - (a) state the reasons for making the declaration; and
 - (b) describe the area of land to which the declaration applies; and
 - (c) state the effect of the restrictions in the area and whether the rights under section 11 or 14, or both, are restricted.

14B Effect of Restricted Water Extraction Area declaration

- (1) A subdivision of land in a Restricted Water Extraction Area results in the same number of owners of land having the right under section 11 or 14 that is restricted as did immediately before the subdivision.

Example for subsection (1)

An owner of land in a Restricted Water Extraction Area where taking groundwater is restricted subdivides the land into 2 lots. On one of the new lots the owner will be able to take groundwater for use on the lot. On the second new lot the owner will not be able to take groundwater.

- (2) A consolidation of land in a Restricted Water Extraction Area results in the same number of owners of land having the right under section 11 or 14 that is restricted as did immediately before the consolidation or, if the consolidation results in fewer owners of land, that number.

Example for subsection (2)

There are 3 adjacent lots in a Restricted Water Extraction Area where taking surface water is restricted. The 3 lots are consolidated into 2 lots. The owners of the 2 new lots will be able to take surface water for use on each lot.

- (3) For subsections (1) and (2), subdivision or consolidation is:
- (a) subdivision or consolidation of land under Part 2A, 4 or 5 of the *Planning Act 1999*; or
 - (b) preparation of a scheme statement under Part 2.3, Division 1 of the *Unit Title Schemes Act 2009* or lodgement of a scheme statement under section 111(1) of the Act for subdivision or consolidation of land; or
 - (c) preparation of a units plan of subdivision or units plan of consolidation under Part IIIA of the *Unit Titles Act 1975* for land.

Note for section 14B

Section 14B prevents an owner of land creating more rights to take water by subdividing or consolidating the land.

14C Requirements for subdivision or consolidation in Restricted Water Extraction Area

- (1) If an owner of land in a Restricted Water Extraction Area proposes to subdivide or consolidate the land under Part 2A, 4 or 5 of the *Planning Act 1999*:
 - (a) the owner must nominate in the application under section 30C(1), 38(1) or 46(1) of the *Planning Act 1999* which of the titles proposed to be created by registration of the plan of subdivision or consolidation under section 51 of the *Land Title Act 2000*:
 - (i) the owner of which retains the right to take water that is restricted in the area; and
 - (ii) the owner (if any) of which no longer retains the right; and
 - (b) the owner must ensure that the application to register the plan of subdivision or consolidation under section 51 of the *Land Title Act 2000* specifies which of the titles proposed to be created on subdivision or consolidation:
 - (i) the owner of which retains the right to take water that is restricted in the area; and
 - (ii) the owner (if any) of which no longer retains the right.
- (2) If a person who prepares a scheme statement under Part 2.3, Division 1 or section 111(1) of the *Unit Title Schemes Act 2009* for land in a Restricted Water Extraction Area proposes to subdivide or consolidate the land by registration of the scheme statement under section 54B of the *Land Title Act 2000*:
 - (a) the person must nominate in the scheme statement prepared under section 18 or 111(1) of the *Unit Title Schemes Act 2009* which of the titles proposed to be created by registration:
 - (i) the owner of which retains the right to take water that is restricted in the area; and
 - (ii) the owner (if any) of which no longer retains the right; and

- (b) the person must ensure that the request for registration of a scheme statement under section 54B of the *Land Title Act 2000* specifies which of the titles proposed to be created by registration:
 - (i) the owner of which retains the right to take water that is restricted in the area; and
 - (ii) the owner (if any) of which no longer retains the right.
- (3) If a person who prepares a units plan of subdivision or units plan of consolidation under Part IIIA of the *Unit Titles Act 1975* for land in a Restricted Water Extraction Area proposes to subdivide or consolidate the land by registration of the units plan under section 9B of the *Real Property (Unit Titles) Act 1975*:
 - (a) the person must nominate in the units plan prepared under Part IIIA of the *Unit Titles Act 1975* which of the titles proposed to be created by registration:
 - (i) the owner of which retains the right to take water that is restricted in the area; and
 - (ii) the owner (if any) of which no longer retains the right; and

 - (i) the owner of which retains the right to take water that is restricted in the area; and
 - (ii) the owner (if any) of which no longer retains the right.
- (4) For section 35 of the *Land Title Act 2000*, a Restricted Water Extraction Area declaration imposes a restriction on land within the area and the Minister may lodge with the Registrar-General a memorandum in accordance with that section for land in the area.

Note for subsection (4)

The Registrar-General's directions and Regulations made under the Land Title Act 2000 may prescribe or provide for an approved form used for lodging a memorandum under section 35(1) of that Act.

14D Bores in Restricted Water Extraction Area

- (1) If land with a bore on it in a Restricted Water Extraction Area is subdivided or consolidated and results in a title to land the owner of which no longer retains the right to take groundwater under section 14, the owner must discontinue the use of and decommission any bore on the land with that title.
- (2) The Controller must not accept an application for a bore work permit made under section 57(1) in respect of the land with that title, other than:
 - (a) an application for a bore work permit for decommissioning or sealing off a bore; or
 - (b) an application for a bore work permit to take groundwater under any entitlement other than the right to take groundwater under section 14.

14E Effect of revocation of Restricted Water Extraction Area declaration

- (1) A declaration under section 14A(1) and the restrictions in the area continue in effect until the declaration is revoked.
- (2) If the Minister revokes a declaration under section 14A(1):
 - (a) in the case of a declaration restricting the right to take water under section 11 – the right to take water under section 11 is restored to owners of:
 - (i) all titles to land created by subdivision or consolidation under Part 2A, 4 or 5 of the *Planning Act 1999* after the declaration; and
 - (ii) all unit titles created by registration of a scheme statement under section 54B of the *Land Title Act 2000* after the declaration; and
 - (iii) all unit titles created by registration of a units plan of subdivision or units plan of consolidation under section 9B of the *Real Property (Unit Titles) Act 1975* after the declaration; and

- (b) in the case of a declaration restricting the right to take groundwater under section 14 – the right to take water under section 14 is restored to owners of:
 - (i) all titles to land created by subdivision or consolidation under Part 2A, 4 or 5 of the *Planning Act 1999* after the declaration; and
 - (ii) all unit titles created by registration of a scheme statement under section 54B of the *Land Title Act 2000* after the declaration; and
 - (iii) all unit titles created by registration of a units plan of subdivision or units plan of consolidation under section 9B of the *Real Property (Unit Titles) Act 1975* after the declaration.
- (3) As soon as practicable after a declaration under section 14A(1) is revoked, the Minister responsible for administering the *Land Title Act 2000* must give a direction to the Registrar-General under section 36(1) of that Act to remove any memorandum made under section 35 of that Act in respect of the declaration.

Note for subsection (3)

The Registrar-General's directions and Regulations made under the Land Title Act 2000 may prescribe or provide for an approved form used for giving a direction under section 36(1) of that Act.

15 Rights of owner or occupier to drain land or retain water

Despite section 9(2), the owner or occupier of land may, if it does not materially diminish or increase the flow or likely flow of water in or into a waterway:

- (a) drain the land in accordance with this Act and the *Soil Conservation and Land Utilisation Act 1969*; or
- (b) for the retention or conservation of water for use on the land – construct, operate, maintain, repair or alter a dam or other water storage or works (other than prescribed works) not in a waterway.

Maximum default penalty: 4 penalty units or, in the case of a body corporate, 20 penalty units.

17 Rights to prevent pollution preserved

- (1) Subject to subsection (2), nothing in this Act affects a right that a person has under a law in force in the Territory to restrict or prevent, or to obtain damages in respect of, the pollution of water.
- (2) In an action to restrict or prevent the pollution of water, it is a defence if it is proved that the pollution was authorised by a licence granted under section 63 or 74.

 - (b) give a copy of the notice to the identified occupiers.

71BA Agreement required before water extraction licence given in respect of Aboriginal water reserve

The Controller must not grant a water extraction licence in relation to an Aboriginal water reserve unless the Controller is satisfied that:

- (a) the applicant for the licence is an eligible Aboriginal person for the eligible land in respect of which the Aboriginal water reserve applies; or
- (b) the applicant for the licence has obtained the agreement of the eligible Aboriginal people for the eligible land in respect of which the Aboriginal water reserve applies to apply for the licence.

 - (a) that the entitlement to water under the licence is used by the developer or transferred to other persons participating in the development;
 - (b) that the water is taken and used for the beneficial uses specified in the licence.

71H Granting subsequent licences

- (1) If a licence is granted to a developer under this Part, the Controller may subsequently grant a licence to take water to any applicant who wishes to participate in the development.
- (2) The application for the licence must be in a form approved by the Controller.

- (a) the application is consistent with the development and the conditions of the developer's licence; and
 - (b) the water will be used only for the beneficial uses authorised in the developer's licence; and
 - (c) the applicant's entitlement to water will come by transfer from the developer's licence or another licence granted in respect of the same development.
- (4) If a licence is to be granted under this section, the Controller must amend the licence from which the entitlement to water is being transferred to reduce its entitlement to water.
- (5) A decision about a licence under this section is:
- (a) not a water extraction licence decision; and
 - (b) not a decision to which Part 6A and section 90 apply.

71J Trading entitlements to water

- (1) The holder (the **seller**) of a licence granted under this Part in relation to a development may apply to the Controller to effect a trade of all or part of the holder's entitlement to water under the licence to one or more other holders (the **buyer**) of a licence granted in respect of the same development.

Example for subsection (1)

One farmer in an agricultural development does not use the entire water entitlement under the farmer's licence and wishes to sell a portion of it to another farmer in the same development who needs the extra water.

- (2) The application for the trade must be in a form approved by the Controller and may be made regardless of whether a water allocation plan is in force in relation to the land.
- (3) After considering the application, the Controller may amend the licences to:
- (a) reduce the seller's entitlement to water; and
 - (b) increase the buyer's entitlement to water by no more than the reduction to the seller's entitlement under paragraph (a).
- (4) A decision about a licence under this section is:
- (a) not a water extraction licence decision; and

- (b) not a decision to which Part 6A and section 90 apply.
- (5) The trade takes effect in accordance with the amendment of the licences and is subject to any conditions determined by the Controller.

Example for subsection (5)

The trade may be for a fixed period of time.

71K Transfer of land

- (1) Section 92 does not apply in relation to a transfer of an interest in land in the development by the developer to the holder of a licence granted under section 71H in the same development.
- (2) To avoid doubt, section 92 applies to the following transfers:
 - (a) a transfer of all the interests in land in the development held by the developer to another person;

 - (3) It is a defence to a prosecution for an offence against subsection (1) if the defendant took reasonable steps and exercised due diligence to prevent the commission of the offence.

Note for subsection (3)

The defendant has a legal burden of proof in relation to a matter mentioned in this subsection.

- (2) Subject to subsection (3), where a notice under subsection (1) is in force, every licence, permit or consent granted under this Act before or after the publication of the notice is, except to the extent that the licence, permit or consent otherwise provides, subject to the condition that nothing is to be done or suffered or permitted to be done under the licence, permit or consent which prejudices the beneficial use, quality, standard, criteria or objective specified in the notice in the area to which it applies.
- (3) Where immediately before the date of a notice under subsection (1) a person was, in accordance with this or any other Act, causing, suffering or permitting:
 - (a) waste to come into contact with water; or
 - (b) water to be otherwise polluted,

in a manner that would, but for this section, be an offence for breach of a condition referred to in subsection (2) or otherwise under this Act, the person may continue to do so for:
 - (c) 3 months after that date;
 - (d) such longer period as the Controller from time to time, in writing, allows; or

74 Grant of waste discharge licence

- (1) Subject to this Act, the Controller may, on the Controller's own initiative or on application in the prescribed manner and form, grant to a person a licence (a **waste discharge licence**) to carry out an action that would otherwise be an offence against this Act whether by virtue of section 73 or because the action is not and cannot be (but for this section) authorised by or under this Act.

 - (b) the Controller is satisfied that special circumstances justify the longer period.

74A Actions may be carried out under *Waste Management and Pollution Control Act 1998*

An action carried out under an environment protection approval, environment protection licence or best practice licence as defined in section 4(1) of the *Waste Management and Pollution Control Act 1998* does not constitute an offence against this Act by virtue of section 73.

75 Further information

The Controller may, by written notice given to an applicant for a waste discharge licence, require the applicant to furnish to the Controller, within the time specified in the notice, such information and such reports, plans and specifications as the Controller considers necessary and relevant to the application and specifies in the notice.
