- (a) has a mesh size of not less than 65 mm; and
- (b) is used or is capable of being used to catch fish or aquatic life.

headed length means the length of a barramundi with the head off, measured from the closest point to the tail fin on the curved edge of the rear of the gill slit to the tip of the middle ray of the tail fin, while the fish is lying flat on a measuring tape or measuring device.

head rope means a rope attached to a gillnet for the purpose of providing support to the net and which may, but not necessarily, have floats attached.

6 Application

- (1) This Division applies to a barramundi licensee and to a person assisting a barramundi licensee.

Penalty: \$5,000.

- (4) Where a fisherman establishes that:
- (a) the fisherman is a member of a fishing party;
 - (b) the barramundi taken will be shared amongst the fishermen in the fishing party; and
 - (c) if the sharing was to take place amongst those fishermen in the party who are present or able to be assembled in a short period of time, no fisherman in the party would be guilty by reason of this subclause or otherwise of contravening this clause,
