- 2 Section 128B of the *Police Administration Act* requires that a person to whom a mandatory community treatment order applies who is taken into protective custody under section 128 of that Act must be taken to an assessment facility in certain circumstances.

- (c) as a result of the person's alcohol misuse, the person has lost the capacity to make appropriate decisions about his or her alcohol use or personal welfare;

- (a) authorises the admission of the person to, and the detention of the person at, a specified treatment centre; and

- (b) requires the person to participate in treatment at the treatment centre; and
- (c) bans the person from possessing, consuming or purchasing alcohol.

- (2) An income management order is related to a mandatory treatment order if the income management order is made as a result of the making of the mandatory treatment order.

Note for section 13

If the Tribunal makes a mandatory treatment order in relation to a person who is an eligible welfare payment recipient, it must also make an income management order in relation to the person – see section 34.

Division 2 Admission to assessment facility and assessment

14 Admission and detention

When an assessable person is taken to an assessment facility, a senior assessment clinician must admit the assessable person to the facility and detain the assessable person for the purpose of an assessment.

15 Information to be given to person

- (1) A senior assessment clinician must give the assessable person:
 - (a) a rights statement; and
 - (b) an oral explanation of the content of the rights statement.
- (2) The statement and explanation must be given as soon as practicable after the assessable person is admitted to the assessment facility.
- (3) If the assessable person is unable to communicate adequately in English but is able to communicate adequately in another language, the senior assessment clinician must, if practicable, arrange for the oral explanation to be given in the other language.

16 Notifying primary contact and others

A senior assessment clinician must ensure each of the following occur as soon as practicable after the assessable person is admitted:

- (a) the assessable person's primary contact and guardian (if any) are notified that the assessable person has been admitted to the assessment facility;
- (b) the assessable person is given the opportunity to speak to:
 - (i) his or her primary contact and guardian (if any); and
 - (ii) at least one other person of his or her choice.

17 Timing of assessment

- (1) Subject to this section, a senior assessment clinician must conduct an assessment of the assessable person as soon as practicable after the assessable person is, in the clinician's opinion, able to be properly assessed.
- (2) The assessment must be conducted not later than 96 hours after the assessable person is admitted to the assessment facility.
- (3) In calculating the period under subsection (2), any period of time during which the assessable person is absent from the assessment facility for any reason (or is being assessed under the Mental Health Act as mentioned in section 21) must be disregarded.

18 Release if assessment not conducted within time allowed

If, on the expiry of the time allowed under section 17(2), an assessment of the assessable person has not been conducted, the assessable person must be released from the assessment facility.

19 Assessment

- (1) An **assessment** is a clinical assessment of the assessable person by a senior assessment clinician.
- (2) In making an assessment a senior assessment clinician must form an opinion as to whether:
 - (a) the assessable person is likely to fulfill the criteria for involuntary admission or involuntary treatment or care in the community under the Mental Health Act; or

- (b) the assessable person is likely to meet the criteria for a mandatory treatment order.
- (3) In conducting the assessment, the senior assessment clinician may examine the assessable person but, before doing so, must explain the purpose of the examination to the person to the extent that is reasonably practicable.

20 Action following assessment

Within 24 hours after completing the assessment, the senior assessment clinician must take one of the following actions:

- (a) make a request in relation to the assessable person in accordance with section 21 (unless the assessment is being made immediately after the person has been referred back for assessment after a request made under that section);
- (b) make an application in relation to the assessable person under section 22.

21 Request under Mental Health Act

- (1) If, in the senior assessment clinician's opinion, the assessable person is likely to fulfil the criteria mentioned in section 19(2)(a) (and the opinion is formed as part of an assessment other than one made after a referral back under the Mental Health Act after a previous request under this section), the clinician must request that the assessable person be assessed under the Mental Health Act to determine whether the assessable person is in need of treatment under that Act.
- (2) The request must be made under section 32(2) of the Mental Health Act.
- (3) In addition, if the assessable person will be assessed under the Mental Health Act at a place other than the assessment facility, the senior assessment clinician must:
 - (a) arrange for the assessable person to be taken to the place at which the person will be assessed; and
 - (b) release the assessable person from the facility for that purpose.

22 Application to Tribunal

- (1) If, in the senior assessment clinician's opinion, the assessable person is not likely to fulfil the criteria mentioned in section 19(2)(a), the senior assessment clinician must make an application to the Tribunal in relation to the assessable person.
- (2) The application must be accompanied by an assessment report.
- (3) The assessment report must be in the form approved by the CEO and include the following:
 - (a) a statement as to whether, in the senior assessment clinician's opinion, the assessable person meets all the criteria for a mandatory treatment order, and the basis for that opinion;

 - (c) if, in the clinician's opinion, the assessable person meets all the criteria for a mandatory treatment order – details of the treatment in which, in the clinician's opinion, it would be appropriate and practicable for the assessable person to participate.

23 Notice of action taken

- (1) As soon as practicable after taking one of the actions mentioned in section 20, the senior assessment clinician must take reasonable steps to ensure the following persons are given notice of that action:
 - (a) the assessable person;
 - (b) the assessable person's primary contact and guardian (if any);
 - (c) the assessable person's representative (if any);
 - (d) any other person nominated by the assessable person.

- (2) In addition, if the action taken by the senior assessment clinician is an action taken under section 20(b) the clinician must give a copy of the application and assessment report to the assessable person and any person nominated by the assessable person.

Division 3 Other matters

A senior assessment clinician at an assessment facility at which a person is detained must ensure the person continues to be detained following assessment until the person is required to be released from the facility or transferred to a treatment centre in accordance with this Act.
