- 2 *A variation of the proposed title area because several other mineral titles are in force for part of that area and the Minister considers the title areas of those titles should not be covered by the title area of the new title.*
- 3 *Separate applications to facilitate different processes because part of the proposed title area is subject to processes under the ALRA or NTA.*

Division 2 Decision process for mineral title applications

70 Initial consideration of mineral title application

- (1) Before making a decision about a mineral title application, the Minister must take into account whether the applicant has met the necessary criteria for the application.
- (2) If the Minister is satisfied the applicant has not met the necessary criteria for the application, the Minister may refuse the application.
- (3) The Minister may also refuse the application if satisfied it is appropriate to do so for another reason.

- (4) Without limiting subsection (3), the Minister may be satisfied it is appropriate to refuse an application for the grant or renewal of a mineral title if there is clear evidence that the applicant is not a fit and proper person to hold the mineral title.

71 Public notice of application for grant of mineral title

- (1) This section applies if, after considering an application for the grant of a mineral title, the Minister is satisfied:
- (a) there is no reason to refuse the application under section 70; and
 - (b) the applicant has paid the advertising costs of giving public notice of the application, if required by the Minister.
- (2) The Minister must publish, in a newspaper circulating throughout the Territory, a notice stating that the application for a mineral title has been made.
- (3) The notice must include the following information:
- (a) the name of the applicant;
 - (b) the type of mineral title to which the application relates;
 - (c) a description or map of the proposed title area that clearly indicates its location and boundaries;
 - (d) a statement that a landowner of land in or comprising the proposed title area may, in writing and within the period specified in the notice, object to the grant of the mineral title;
 - (e) a statement that any other person may, in writing and within the period specified in the notice, make written submissions about the application;
 - (f) the address where objections and submissions may be given to the Minister;
 - (g) other details about the application that the Minister considers will allow a person to make proper objections or submissions.
- (4) The period specified under subsection (3)(d) or (e) must be at least 30 days after the day on which the notice is published.
- (5) This section applies in relation to an application for the grant of an MA only if the Minister requires it.

72 **Objections and submissions about grant of mineral title**

- (1) As soon as practicable after the end of the period mentioned in section 71(4), the Minister must give the applicant for the grant of the mineral title:
 - (a) a copy of each objection and submission given to the Minister as provided by section 71(3)(d) and (e); and

 - (b) may give a copy of the response to the person who made the objection or submission.

73 **Grant or issue of title for land in declared park or reserve**

- (1) The Minister may grant or issue a mineral title for land in a declared park or reserve only after consulting with the Minister administering the *Territory Parks and Wildlife Conservation Act* (the **relevant minister**) and taking into account the opinion of the relevant minister.
- (2) The relevant minister may specify conditions in relation to the grant of any of the following mineral titles for land in a declared park or reserve:
 - (a) an ML, EMP or EML; or
 - (b) an MA that corresponds to an ML, EMP or EML.
- (3) If land in a declared park or reserve is also declared to be a wilderness zone under section 12 of the *Territory Parks and Wildlife Conservation Act*, the relevant minister may specify conditions in relation to any of the following:
 - (a) the grant of an EL or EMEL;
 - (b) the grant of an MA that corresponds to an EL or EMEL;
 - (c) the issuing of an ELR or the grant of an MA that corresponds to an ELR.

- (4) If the relevant minister specifies conditions under subsection (2) or (3), the Minister may grant or issue the relevant mineral title only in accordance with the conditions.

74 Grant relating to Aboriginal land or native title land

- (1) If any of the proposed title area of an application for the grant of a mineral title comprises Aboriginal land, the Minister may grant a mineral title for that land only if satisfied the applicant has obtained the permit, consent or agreement required under the ALRA.
- (2) If the Minister is satisfied the grant of a mineral title will be a future act in relation to any of the proposed title area of the application for the grant, the Minister may grant the mineral title only if satisfied all procedures under the NTA relevant to the future act have been followed.
- (3) In this section:
future act, see section 233 of the NTA.

75 Grant to tenants in common

If the Minister grants a mineral title to 2 or more persons, the mineral title is held by the persons as tenants in common:

- (a) in the percentages specified in the mineral title (as indicated in the application for the grant); or
- (b) if no percentage is specified – in equal shares.

76 Survey of particular title areas

- (1) This section applies in relation to any of the following applications:
- (a) an application under section 33 for the designation of an EL as an ELR;
- (b) an application under Part 3 or 4 for the grant of an ML, EML or EMP;
- (c) an application under section 118(1) for the grant of an MA, if the Minister requires a survey of the proposed title area of the MA.
- (2) The applicant must survey the proposed title area of the mineral title, and give the Minister a copy of the plan of survey, before the Minister may issue the ELR or grant the ML, EML, EMP or MA (as applicable).

- (3) However, if the Minister is satisfied there are reasons to justify a delay in surveying the proposed title area of the mineral title, the Minister may:
- (a) issue or grant the title before the proposed title area is surveyed; and
 - (b) require the applicant to complete a survey of the title area within a specified period not exceeding 6 months; and
 - (c) include the requirement under paragraph (b) as a condition of the title.
- (4) In relation to an application for the grant of an ML or EML, if the title area to be surveyed:
- (a) exceeds the size prescribed by regulation – the applicant must:
 - (i) have the title area surveyed by a licensed surveyor as defined in section 4 of the *Licensed Surveyors Act*, and
 - (ii) give the Minister a copy of the plan of survey for the title area certified by the Surveyor-General under the *Licensed Surveyors Act*, or
 - (b) does not exceed the size prescribed by regulation – the applicant must survey the title area as prescribed by regulation.
- (5) In relation to an application for the designation of an EL as an ELR, or the grant of an EMP or MA, the applicant must survey the title area as prescribed by regulation.

77 Discretions relating to title area

- (1) On the grant of a mineral title, the Minister may exclude land from the title area if the Minister considers it appropriate to do so (for example, to prevent authorised activities being conducted over or in the vicinity of a public road or railway line).
- (2) If the exclusion of land under subsection (1) has the effect of dividing the title area into separate parts, those parts are taken to form a single title area.
- (3) If the reason for the exclusion of the land no longer exists (for example, if a public road is permanently closed), the exclusion ceases to have effect and the title area is varied accordingly.

- (4) The Minister may grant a single mineral title for separate title areas if there are circumstances to justify it (for example, because of the geography or natural configuration of the land).
- (5) However, if a provision of Part 3 or 4 specifies a minimum size for the title area, the total area of the separate title areas must not be less than the specified size.

Note for subsections (4) and (5)

Section 28 deals with separate areas for an EL.

78 Deciding application for grant of mineral title

- (5) Without limiting subsection (2)(c), the Minister may decide to refuse to grant a person a mineral title (a *new title*) for an area of land in or comprising an existing title area or existing proposed title area if the Minister considers:
- (a) the authorised activities to be conducted under the new title would be significantly incompatible with the work being carried out, or to be carried out, in the existing title area or existing proposed title area; or
 - (b) in relation to an existing title area and an application for the grant of an EL or EMEL – the existing title area substantially covers the proposed title area of the EL or EMEL.

79 Deciding other mineral title applications

- (1) This section applies in relation to any mineral title application, except an application for the grant of a mineral title, after:
- (a) all the procedures under this Division relevant to the application are completed; and

- (2) Subject to subsections (3) and (4), a *mineral authority* is a mineral title that:
 - (a) corresponds to a mineral title, as specified in the MA, that may be granted under Part 3 or 4 (the *corresponding title*); and

- (b) gives the title holder of the MA the same rights as a holder of the corresponding title, including the right to conduct the authorised activities under the MA that may be conducted under the corresponding title; and

Part 7 Mineral Titles Register and caveats

Division 1 Register

121 Register

- (1) The Minister must keep a Mineral Titles Register.
- (2) The register is a record of information relating to the following:

 - (g) matters included in each register mentioned in section 206.
- (3) The Minister may:
 - (a) keep information in the register in any form the Minister considers appropriate; and
 - (b) publish on the Agency's website information from the register that the Minister considers appropriate for public inspection.
- (4) However, the Minister may withhold particular information if the Minister considers it necessary to do so to preserve confidentiality.
- (5) A person may inspect the register during the normal business hours of the Agency and, on request, may be given a copy or summary of information in the register.
- (6) A regulation may provide for any of following:
 - (a) the information to be entered in the register;
 - (b) a fee payable by a person for any of the following:
 - (i) making an application or lodging a document under this Part;
 - (ii) inspecting the register;

- (iii) a copy or summary of information given to the person.

122 Instruments relating to mineral rights interests

- (1) A mineral rights interest is not capable of being created, transferred, assigned, mortgaged, charged, devolved or dealt with in any way except by written instrument (an *instrument of dealing*).
- (2) The registration of an instrument of dealing does not give the mineral rights interest evidenced by the instrument any validity or effect it would not have had if this Division had not been enacted.
- (3) The Minister is not required to decide the validity of information given by a person in an instrument of dealing.

123 Registration of transfer of mineral rights interest

- (1) A person who intends to transfer all or part of the person's mineral rights interest to another person must apply to the Minister for approval and registration of the transfer.

 - (a) in the approved form; and
 - (b) include the details of the proposed transfer; and
 - (c) signed by all the parties to the transfer.

- (5) The instrument of transfer has no effect under this Act until it is registered.

124 Registration of devolution of mineral rights interest

- (1) A person on whom a mineral rights interest has devolved by operation of law must apply in the approved form to the Minister for registration of the devolution.

- (2) The applicant must give the Minister documentary evidence of the devolution.
- (3) The Minister must register the devolution unless satisfied there are circumstances why he or she should refuse the application.
- (4) The devolution has no effect under this Act until it is registered.

125 Registration of other dealings

- (1) This section applies in relation to an agreement, arrangement, mortgage or dealing (a *general dealing*) relating to a mineral rights interest that is not a transfer or devolution of the interest.
- (2) A person may apply in the approved form to the Minister for registration of a general dealing.
- (3) The Minister must register the general dealing unless satisfied there are circumstances why he or she should refuse to do so.
- (4) The registration of the general dealing gives it priority over another general dealing, relating to the same mineral rights interest, that:
 - (a) if registered – was lodged for registration at a later date; or
 - (b) is not registered.
- (5) However, the priority mentioned in subsection (4) does not apply if the other general dealing:
 - (a) is a charge that is required to be lodged under the Corporations Act 2001, Part 2K.2; or
 - (b) relates to an estate or interest in land (whether freehold or leasehold) registered under the *Land Titles Act*.

126 Notice of registration and refusal of application

- (1) After the Minister has registered a transfer of a mineral rights interest under section 123(3), the Minister must give notice of the registration to each party to the transfer.
- (2) After the Minister has registered a devolution of a mineral rights interest under section 124(3), or a general dealing under section 125(3), the Minister must give notice of the registration to the applicant for registration.
- (3) If the Minister considers it appropriate, the Minister may give notice of a registration under this Division to a person who has an interest in the registration.

- (4) If the Minister refuses an application under this Division, the applicant may apply to the Tribunal for a review of the decision.

127 Correction of register

- (1) On the Minister's own initiative or on application under subsection (3), the Minister may correct an error in the register.
- (2) The Minister must correct an error if satisfied the correction is necessary to ensure registration of accurate information relating to a mineral title or an application for the grant of a mineral title.
- (3) A person may apply to the Minister to correct the register in relation to any of the following matters:
- (a) the omission of information;
 - (b) the erroneous inclusion of information;
 - (c) an error or defect in information recorded.

- (1) The Minister may give a person a signed certificate, certifying a matter relating to particular information recorded in the register, if the person:
- (a) applies to the Minister for the certificate; and
 - (b) pays the fee prescribed by regulation for the application.
- (2) A certificate mentioned in subsection (1), purporting to be signed by the Minister, is admissible in a proceeding as evidence of the matter certified.

129 Application of *Law of Property Act*

- (1) The *Law of Property Act* applies to an interest in relation to land granted, created or taking effect under this Act.
- (2) However, if there is an inconsistency between this Act and the *Law of Property Act*, this Act prevails.
- (3) In this section:
- interest*, see section 4 of the *Law of Property Act*.

131 Lodgment, acceptance and registration of caveat

- (1) A person claiming a legal or equitable interest in a mineral title, or in an application relating to a mineral title, may lodge with the Minister a caveat forbidding the registration, except in accordance with section 134, of dealings with the title or application that are received by the Minister after the Minister has accepted the caveat.
- (2) The caveat must be:
 - (a) in the approved form; and
 - (b) specify the name of the caveator and the address at which the caveator may be given notices; and
 - (c) specify the interest claimed in the mineral title or application; and
 - (d) be signed by the caveator or the caveator's representative.
- (3) The caveat may specify dealings to which the caveat does not apply.
- (4) The Minister may accept the caveat and, as soon as practicable after doing so, must enter it in the register.

Note for subsection (4)

The Minister need not accept a caveat if the form of the caveat is deficient or the fee prescribed for its lodgment has not been paid – see section 164(3) and (5).

- (5) The caveat comes into force when the Minister accepts the caveat.

132 When caveat ceases to be in force

- (1) The caveat ceases to be in force if:

 - (b) the Tribunal orders under section 133(3) that it be removed from the register or cancelled; or
 - (c) section 134(1)(a) applies and no notice of continuance is accepted under section 134(3)(b).
- (2) The caveator may withdraw the caveat by giving the Minister a notice of the withdrawal.
- (3) If the caveat ceases to be in force (the *cancelled caveat*), the caveator must not lodge another caveat claiming the same interest as specified in the cancelled caveat.

133 Notice of caveat and application for cancellation or removal

- (1) The Minister must give notice of the acceptance of a caveat to the holder of the mineral title, or person who made the application, to which the caveat relates.
- (2) The title holder or applicant may apply to the Tribunal for a summons ordering the caveator to appear before the Tribunal to give reasons why the caveat should not be removed from the register or cancelled.
- (3) The Tribunal may make the orders it considers appropriate, including an order that:
 - (a) the caveat be removed from the register; or
 - (b) if the caveat has not yet been entered in the register – the caveat be cancelled.

134 Effect of caveat on registration of particular dealing

- (1) If, after accepting a caveat, the Minister receives an instrument (*the dealing*) purporting to deal with the mineral title or application to which the caveat relates, the Minister:
 - (a) must give the caveator a notice of the receipt of the dealing; and
 - (b) may enter the dealing in the register only after the caveat ceases to have effect in relation to the dealing.

- (2) The caveat ceases to have effect in relation to the dealing:
 - (a) at the end of 30 days after notice is given to the caveator under subsection (1)(a); or
 - (b) if a notice of continuance of the caveat is accepted under subsection (3)(b) – on acceptance of the notice.
- (3) After the caveator receives a notice under subsection (1)(a):
 - (a) the caveator may lodge with the Minister a notice of the continuation of the caveat; and
 - (b) the Minister must accept the notice of continuance if the caveator:

Note for subsection (3)

The extraction of minerals as a commercial fossicking activity is mining and the person conducting the activity must hold an ML authorising the activity.

- (4) For subsection (2)(a) and (b), searching for or extracting a mineral by a method that involves the use of explosives is not fossicking.
- (5) A reference in this section to a mineral:
- (a) does not include a reference to any of the following:
 - (i) diamonds, fossils of vertebrate animals, and meteorite fragments;
 - (ii) another mineral or substance excluded by regulation; and

- (3) A regulation may prescribe the circumstances when a person intending to fossick for gold in the title area of an EL requires the written consent of the holder of the EL.

141 Requirements for other title areas and proposed title areas

A person may fossick in the title area or proposed title area of an ML, EMP or EML with the written consent of the relevant title holder or relevant applicant as prescribed by regulation.

- (2) The principles for transition are as follows:
- (a) to achieve consistency of mineral titles held under this Act;
 - (b) to maximise the potential of exploration for, and extraction and processing of, minerals or extractive minerals by ensuring those activities are conducted under appropriate mineral titles;
 - (c) to assess corresponding mineral titles and ensure they authorise appropriate activities to be conducted under this Act;
 - (d) to facilitate the conversion of:
 - (i) non-compliant titles to the appropriate mineral titles; and
 - (ii) non-compliant existing interests to the appropriate mineral titles or other appropriate interests;
 - (e) to consult with holders of non-compliant titles or non-compliant existing interests to achieve appropriate conversions of the titles or interests;

Division 3 Existing applications

198 Existing applications generally

- (1) An existing application is taken to have been made under this Act and must be decided in accordance with this Division.
- (2) If a prescribed fee was paid under the repealed Act for the existing application, no further fee is payable for the application after the commencement day.
- (3) If a prescribed fee payable for the existing application under the repealed Act is not paid within 30 days after the commencement day, the fee prescribed under this Act for the corresponding application is payable.
- (4) A regulation may provide for procedures, and discretions the Minister may exercise, in relation to any of the following:
 - (a) the acceptance or refusal to accept an existing application;
 - (b) the consideration of an existing application;
 - (c) the refund of fees payable in relation to an existing application.

199 Grant or renewal – corresponding application

- (1) This section applies to an existing application for:
 - (a) the grant of an existing interest that, had it been in force under the repealed Act, would have been converted under section 202(1) to its corresponding mineral title; or
 - (b) the renewal of an existing interest that has been converted under section 202(1) to its corresponding mineral title.

Example for subsection (1)(a)

An existing application for the grant of an exploration licence that, had it been in force under the repealed Act, would have been converted to an EL.

- (2) If the person who made the existing application has met the necessary criteria for the corresponding application, the Minister must decide the existing application in accordance with the procedures relevant to the corresponding application.
- (3) If the person who made the existing application has not met the necessary criteria for the corresponding application, the Minister may:
 - (a) if the existing application meets requirements under the repealed Act for the existing application – decide the application as if the applicant had met the necessary criteria for the corresponding application; or
 - (b) under section 69 recommend a variation or replacement of the existing application and, if it is varied or replaced, decide the application in accordance with Part 5, Division 2; or
 - (c) if paragraph (a) does not apply and it is impracticable to apply paragraph (b) – deal with or decide the existing application:
 - (i) as prescribed by regulation; or
 - (ii) if there is no regulation relating to the particular application – as the Minister considers appropriate, having regard to the principles for transition mentioned in section 194(2).

200 Grant or renewal – no corresponding application

- (1) This section applies to an existing application for:
 - (a) the grant of an existing interest that, had it been in force under the repealed Act, would be a non-compliant existing interest; or
 - (b) the renewal of a non-compliant existing interest; or
 - (c) any other application relating to a non-compliant existing interest.
- (2) The Minister must deal with or decide the application:
 - (a) as prescribed by regulation; or
 - (b) if there is no regulation relating to the particular application – as the Minister considers appropriate, having regard to the principles for transition mentioned in section 194(2).

201 Other existing applications

- (1) This section applies to an existing application other than the following:
- (a) an application to which section 199 or 200 applies;
 - (b) an application relating to a proceeding before a warden, including a plaint commencing a proceeding in the warden's court.
- (2) If the existing application relates to an existing interest that has been converted under section 202(1) to its corresponding mineral title, and this Act includes a provision for the corresponding application, the Minister must follow the procedures under this Act for deciding the existing application.

Examples for subsection (2)

- 1 *If the existing application is for the variation of an exploration licence under section 172 of the repealed Act, the Minister must follow the procedures under section 100 applicable to the variation of the conditions of an EL.*
 - 2 *If the existing application is for the registration of a transfer of an interest in a mineral lease under section 173 of the repealed Act, the Minister must follow the procedures under section 123 for a transfer of the same interest in an ML.*
- (3) If the existing application relates to any other matter, the Minister must deal with or decide the application:
- (a) as prescribed by regulation; or
 - (b) if there is no regulation relating to the particular application – as the Minister considers appropriate, having regard to the principles for transition mentioned in section 194(2).

Division 4 Existing interests and corresponding mineral titles

202 Conversion of existing interest to corresponding mineral title

- (1) On the commencement day, each existing interest specified in the table, column 1, is converted to the corresponding mineral title specified opposite in the table, column 2:

Column 1	Column 2
exploration licence	EL
exploration retention licence	ELR
mineral lease	ML

mining tenement comprising an area of land the right to occupation of which is conferred by section 61(2) of the repealed Act	ML
mining lease or special mineral lease continued in force by section 191(9) or (12) of the repealed Act	ML
extractive mineral permit	EMP
extractive mineral lease	EML
authority under section 178 of the repealed Act	MA

- (2) To avoid doubt, subsection (1):
- (a) applies to an existing interest to which one of the following Acts applies:
- (i) the *Merlin Project Agreement Ratification Act*,
 - (ii) the *Tanami Exploration Agreement Ratification Act 2004*; and
- (b) does not apply to an interest, right or title to which one of the following Acts applies:

- (2) However, the Minister may decide under section 100 to vary the condition.

- (3) In relation to a corresponding mineral title that does not comply fully with a requirement of this Act, the Minister may, as soon as practicable after the commencement day:
- (a) give the title holder a notice recommending a way to achieve compliance; or
 - (b) require the title holder to take a specified action to achieve compliance; or
 - (c) if the non-compliance is such that it may be appropriate to convert the corresponding mineral title to another type of mineral title, give the holder of the non-compliant title a notice stating the following:
 - (i) the Minister has decided to convert the non-compliant title to another specified mineral title;
 - (ii) details of the non-compliance;
 - (iii) the information the title holder must give the Minister about the non-compliant title and the time within which it must be given;
 - (iv) the title holder may accept the Minister's decision, or make a submission to the Minister, within the time specified in the notice;
 - (v) the title holder is entitled to a review of the Minister's decision as prescribed by regulation;
 - (vi) any other information required by regulation.

Example for subsection (3)(c)

An ML that was a mineral lease under the repealed Act may have a title area that does not contain an ore body or anomalous zone as required by the operation of Part 3, Divisions 1, 2 and 3, in which case it may be appropriate to convert the ML to an EL.

- (4) The times specified under subsection (3)(c)(iii) and (iv) must be sufficient to enable the holder of the non-compliant title to obtain the information and fully consider the Minister's decision, taking into account the nature of the information and non-compliance.

204 Non-compliant existing interests

- (1) This section applies to each of the following existing interests (a ***non-compliant existing interest***):
- (a) a mineral claim;

- (b) a right or entitlement continued in force by section 191(19) or (20) of the repealed Act;
 - (c) a title continued in force by section 191(28) of the repealed Act.
- (2) The non-compliant existing interest continues in force and has effect after the commencement day as if this Act had not commenced.
- (3) However, as soon as practicable after the commencement day, the Minister must decide to take one of the following actions in relation to the non-compliant existing interest:
 - (a) convert it to the mineral title the Minister considers appropriate;
 - (b) facilitate its conversion to another interest in relation to the land to which it relates (for example, a licence under the *Crown Lands Act*);
 - (c) accept its surrender;
 - (d) cancel it.
- (4) For subsection (3), the Minister must give the holder of the non-compliant existing interest a notice stating the following:

 - (d) the holder is entitled to a review of the Minister's decision as prescribed by regulation;
 - (e) any other information required by regulation.
- (5) The times specified under subsection (4)(b) and (c) must be sufficient to enable the holder of the non-compliant existing interest to obtain the information and fully consider the Minister's decision, taking into account the nature of the information and non-compliant interest.

205 Other matters to be dealt with by regulation

Regulations may deal with matters relevant to the following:

210 Question reserved

The warden's court may, at any stage of a proceeding mentioned in section 209(1), reserve a question of law for the opinion of the Supreme Court, and section 151(a) to (e) of the repealed Act continues to apply as if the repealed Act were still in force.

Division 7 Other matters

213 Mining Trust Fund

- (1) Part XIII A of the repealed Act continues to operate in relation to moneys paid into the Mining Trust Fund before the commencement day as if that Part were still in force.
- (2) However, the Minister may direct the trustee of the Mining Trust Fund to repay moneys paid by a person under section 174J(1) of the repealed Act (and any interest earned on those moneys) to the person, or the person's assignee, if the Minister is satisfied:
