day means a 24 hour period from midnight to midnight.

gillnet means a net or part of a net (including any warp, rope, chain, material, device or thing used in conjunction with or attached to the net or part) that:

- (a) has a mesh size of not less than 65 mm; and
- (b) is used or is capable of being used to catch fish or aquatic life.

headed length means the length of a barramundi with the head off, measured from the closest point to the tail fin on the curved edge of the rear of the gill slit to the tip of the middle ray of the tail fin, while the fish is lying flat on a measuring tape or measuring device.

head rope means a rope attached to a gillnet for the purpose of providing support to the net and which may, but not necessarily, have floats attached.

holding area means an area described in Schedule 1.

Mary River Fish Management Zone means the area described in Schedule 3.

Mary River Seasonally Closed Area means the area described in Schedule 4.

open season means the period commencing on 1 February in any year and expiring with 30 September in the same year,

open waters means those waters in which a barramundi licensee is permitted to fish under clause 8.
