NORTHERN TERRITORY OF AUSTRALIA

As in force at 1 January 2013

ENVIRONMENTAL ASSESSMENT ADMINISTRATIVE PROCEDURES

Administrative Procedures under the *Environmental Assessment Act 1982*

1 Citation

These administrative procedures may be cited as the *Environmental Assessment Administrative Procedures*.

2 Commencement

These administrative procedures shall come into operation on the commencement of the *Environmental Assessment Act 1982*.

3 Definitions

In these administrative procedures, unless the contrary intention appears:

advisory bodies, in respect of a proposed action means the Agencies, if any, having administrative responsibilities in respect of the proposed action.

approved means approved by the NT EPA.

proponent means the person, organisation or Agency responsible for the development and execution of a proposed action.

report means a public environmental report.

statement means an environmental impact statement.

3A When do the modified procedures apply?

The modified procedures apply in relation to a proposed action when the proposed action is assessed by the Territory in accordance with a bilateral agreement between the Territory and the Commonwealth made under section 45 of the *Environment Protection and Biodiversity Conservation Act 1999* of the Commonwealth.

4 NT EPA to keep records

- (1) The NT EPA shall keep and maintain or cause to be kept and maintained a record, in such form (including an electronic form) or combination of forms as it thinks fit, of:
 - (a) each proposed action in respect of which the NT EPA directs a proponent, under clause 8(5)(b), to prepare and submit to it a public environmental report or an environmental impact statement;
 - (b) an alteration and re-assessment under clause 14A in respect of a proposed action;
 - (c) each assessment report prepared by the NT EPA; and
 - (d) each delegation made by the Minister under section 11 of the Act.
- (2) A person may inspect a record referred to in subclause (1), or a copy of it, at an office of the NT EPA.

5 Compliance with procedures

The proponent of a proposed action shall, for the purpose of ensuring that these administrative procedures are complied with in relation to the proposed action, comply with a direction given under these administrative procedures to him, within the period, if any, and in accordance with the terms and conditions, if any, specified in the direction.

6 Notification of proposed action to NT EPA

- (1) A responsible Minister shall, as soon practicable after being informed of the formulation of a proposed action, cause notification to be given in writing (in an approved form) to the NT EPA specifying the proposed action and the name and address of the proponent in respect of the proposed action.
- (2) Where the NT EPA receives notification under subclause (1), it may, not later than 14 days after receiving the notification, direct the proponent to provide it further information which, in its opinion, is necessary for determining whether or not a public environmental report or an environmental impact statement is necessary in respect of the proposed action, and which it specifies in the direction.

-
- (3) Where a proponent receives a direction from the NT EPA under subclause (2), the proponent shall, not later than 14 days after receiving the direction or within such other period agreed to by the NT EPA as appropriate, provide the information specified in the direction to the NT EPA .

7 NT EPA may call for report

Where, in respect of a matter, a notification has not been given to the NT EPA under clause 6 and the NT EPA is of the opinion that the matter may be a proposed action, the NT EPA may, after consulting with the minister who would be the responsible Minister if that matter were a proposed action, call for notification under clause 6 in respect of that matter and where the NT EPA does so call for notification, that matter shall be a proposed action and these administrative procedures shall apply accordingly.

8 NT EPA to decide whether or not report or statement required

- (1) Where the NT EPA receives notification of a proposed action under clause 6 and, in its opinion, it appears that the environmental significance of the proposed action is such that an environmental impact statement in respect of the proposed action will be necessary, it shall consult with, and obtain comments from, advisory bodies and the responsible Minister as to the necessity for a statement in respect of the proposed action.
- (2) Having given due consideration as to whether or not it is necessary for a public environmental report or an environmental impact statement in respect of the proposed action and having complied with subclause (1), the NT EPA shall by notice in writing to the proponent and the Minister inform them that:
- (a) it has decided that a report or a statement is necessary in respect of the proposed action; or
 - (b) subject to clause 14A, these administrative procedures are at an end in respect of the proposed action.
- (2A) The Minister must give a copy of the notice to the responsible Minister.
- (3) Where the NT EPA informs them of its decision under subclause (2)(a) that a report or statement is necessary, the NT EPA shall prepare a description in writing of the matters relating to the environment which it considers are necessary to be dealt with in the report or statement.

-
- (4) The NT EPA shall cause a notice to be published in such newspapers and on such occasions as it considers appropriate:
- (a) advising that it will require a report or a statement in respect of the proposed action;
 - (b) advising that a description of the matters relating to the environment which it considers necessary to be dealt with in the report or statement is available for public comment;
 - (c) inviting interested persons to examine the description of the matters and make written submissions in respect of it:
 - (i) not later than 14 days after the date of publication of the notice; or
 - (ii) if the modified procedures apply – within the period (at least 14 days after the date of publication of the notice) specified in the notice;
 - (d) specifying the place or places where copies of the description of the matters may be obtained; and
 - (e) specifying an address to which interested persons may send or deliver their submissions,

and the NT EPA shall cause the description of the matters to be made available as specified in the notice.

- (5) The NT EPA shall, not later than 14 days after the expiration of the period referred to in subclause (4)(c), having taken into account the submissions received from interested persons:
- (a) review and revise the matters relating to the environment it considers necessary to be dealt with in the report or statement in respect of the proposed action; and
 - (b) direct the proponent to prepare and submit to it a report or a statement in accordance with these procedures.
- (6) The NT EPA shall specify in the direction given to the proponent under subclause (5):
- (a) the matters relating to the environment which the proponent shall deal with in the report or statement;
 - (b) the period within which the proponent shall prepare and submit the report or statement (not being a revised statement under clause 12) to the NT EPA;

-
- (c) the number of copies of the report or statement (whether or not revised under clause 12) the proponent shall provide to the NT EPA , the responsible Minister and such other Agencies and persons as the NT EPA considers appropriate and specifies in that direction; and
 - (d) the newspapers in which, and occasions when, the proponent shall publish a notice under clause 9.

9 Report or statement to be made available for public comment

- (1) Subject to clause 10, where a proponent prepares and submits to the NT EPA a public environmental report or an environmental impact statement (not being a revised statement under clause 12) in accordance with a direction under clause 8, the proponent shall make the report or statement (or part of it) available for public comment in accordance with this clause.
- (2) A proponent referred to in subclause (1) shall publish a notice, in an approved form in such newspapers and on such occasions as the NT EPA has directed under clause 8:
 - (a) advising that the report or statement, or (where the NT EPA has made a direction under clause 10(2)(a)) part of it, is available for public comment;
 - (b) inviting interested persons to examine a copy of the report or statement and make written comments on the proposed action the subject of the report or statement:
 - (i) in the case of a report:
 - (A) not later than 28 days after the date of publication of the notice; or
 - (B) if the modified procedures apply – by the date (at least 28 days after the date of publication of the notice) specified in the notice; or
 - (ii) in the case of a statement, by such date, being not less than 28 days after the date of publication of the notice, as is specified in the notice;
 - (c) if the notice is about a report, specifying the place or places where copies of the report (or part of it) may be:
 - (i) inspected; or
 - (ii) if the modified procedures apply – inspected or purchased;

-
- (ca) if the notice is about a statement – specifying the place or places where copies of the statement (or part of it) may be inspected or purchased; and
 - (d) specifying an address to which interested persons may send or deliver their written comments,

and the proponent shall make the report or statement available as specified in the notice.

10 Withholding of material contained in report or statement

- (1) A proponent referred to in clause 9(1) may, at the time of submitting the report or statement to the NT EPA, lodge with the NT EPA an objection (in an approved form) to the making of part of the report or statement available to the public setting out the reasons for the objection.
- (2) On receipt of an objection referred to in subclause (1), the NT EPA shall, as soon as practicable, consider the objection and, after consultation with the responsible Minister:
 - (a) accept the reasons for the objection (in whole or in part) and direct that the part of the report or statement to which the objection relates is not to be made available to the public under clause 9; or
 - (b) direct that the whole of the report or statement is to be made available to the public under clause 9.
- (3) A proponent who lodges an objection under subclause (1) is not required to publish a notice and make the report or statement available until the NT EPA makes a direction under subclause (2), but on the NT EPA making the direction the proponent shall, as soon as practicable, comply with clause 9.

10A Revision of report if modified procedures apply

- (1) This clause applies if the modified procedures apply.
- (2) If the proponent of a proposed action the subject of a public environmental report receives written comments in accordance with clause 9(2)(b)(i)(B), the proponent must revise the report and produce a supplement to the report taking account of those comments within the period the NT EPA directs under subclause (4).
- (3) On completion, a supplement produced under subclause (2) is part of the report it supplements and a reference to the report is reference to the report together with the supplement.

-
- (4) The proponent must revise the report, produce the supplement, and provide the NT EPA with copies of both, within the period the NT EPA (after consulting the proponent) directs.

11 Examination of report

- (1) On receipt of a public environmental report, the NT EPA shall, within the period specified in the notice referred to in clause 9(2)(b)(i), examine the report in consultation with such advisory bodies as the NT EPA considers appropriate.

- (2) During the period referred to in subclause (1), the NT EPA may, for the purpose of examining the report:

(a) direct the proponent to provide it such other information it considers necessary to facilitate the examination of the report and specifies in the direction; or

(b) request or engage a person or an organisation (being in its opinion suitably qualified) to provide it information in respect of the report or to make comments, suggestions or recommendations in respect of the report,

within the period it thinks fit for the purpose of provision of the information or the comments, suggestions or recommendations and specifies to the proponent, the person or the organisation (as the case may be).

- (3) The NT EPA shall, not later than 14 days after the expiration of the period referred to in subclause (1), or subclause (2)(a) or (2)(b) (whichever is the later):

(a) having taken into account the written comments received from interested persons under clause 9, the information and comments, suggestions or recommendations supplied to it in accordance with subclause (2) and the results of an inquiry relating to the report conducted under section 10 of the Act (if any), make the assessment report about the proposed action the NT EPA thinks fit for the protection of the environment; and

(b) give a copy of the assessment report to the Minister.

- (4) The Minister:

(a) may make a written comment in relation to the assessment report; and

-
- (b) must give a copy of the assessment report, together with any written comment made by the Minister under paragraph (a), to the responsible Minister.

Notes for subclause (4)

1 Under section 8A of the Act, reporting obligations apply to a decision of the responsible Minister in relation to the proposed action.

2 Under section 8B of the Act, reporting obligations apply if the Minister makes a written comment in relation to the assessment report.

11A Examination of report if modified procedures apply

- (1) This clause applies if the modified procedures apply.
- (2) Within 28 days after receiving a public environment report and any supplement to the report, the NT EPA must:
 - (a) subject to subclause (3), examine the report and the supplement in consultation with the advisory bodies the NT EPA considers appropriate;
 - (b) subject to subclause (4), make the assessment report about the proposed action the NT EPA considers appropriate; and
 - (c) give a copy of the assessment report to the Minister.
- (2A) The Minister:
 - (a) may make a written comment in relation to the assessment report; and
 - (b) must give a copy of the assessment report, together with any written comment made by the Minister under paragraph (a), to the responsible Minister.

Notes for subclause (2A)

1 Under section 8A of the Act, reporting obligations apply to a decision of the responsible Minister in relation to the proposed action.

2 Under section 8B of the Act, reporting obligations apply if the Minister makes a written comment in relation to the assessment report.

- (3) For the purpose of examining a report and any supplement under subclause (2)(a), the NT EPA may:
 - (a) direct the proponent to provide the NT EPA with the information the NT EPA considers necessary to facilitate the examination of the report and the supplement and specifies in the direction; or

-
- (b) request or engage a person or an organisation that, in the NT EPA's opinion, is suitably qualified to provide the NT EPA with information in respect of the report and the supplement or to make comments, suggestions or recommendations in respect of the report and the supplement,

within the period the NT EPA thinks fit for providing the information, comments, suggestions or recommendations and specifies to the proponent, person or organisation, as the case may be.

- (4) When making an assessment report about a proposed action under subclause (2)(b), the NT EPA must take into account:
 - (a) any written comments received under clause 9;
 - (b) the information, comments, suggestions and recommendations provided under subclause (3); and
 - (c) the results of any inquiry conducted under section 10 of the Act.

12 Revision of statement

- (1) On the expiration of the period specified in the notice referred to in clause 9(2)(b)(ii), the proponent of a proposed action the subject of an environmental impact statement shall, having regard to the written comments received from interested persons under clause 9 and the results of an inquiry relating to the statement conducted under section 10 of the Act (if any), conduct a revision of the statement and produce a supplement to the statement to take account of those written comments and results of the inquiry.
- (2) A supplement referred to in subclause (1) shall, on its completion, become part of the statement it supplements and a reference to the statement then becomes a reference to the statement together with the supplement.
- (3) A proponent referred to in subclause (1) shall:
 - (a) conduct the revision of the statement and produce the supplement within such period as the NT EPA , after consulting with the proponent, directs; and
 - (b) not later than the last day of the period referred to in paragraph (a), provide copies of the statement to the NT EPA, the responsible Minister and the Agencies and persons as directed under clause 8(6).

14 Examination of final statement

- (1) Where the NT EPA receives a statement under clause 12(3), it shall, in consultation with such advisory bodies as the NT EPA thinks appropriate, within the relevant period under subclause (4), examine the statement.
- (2) For the purpose of examining the statement under subclause (1), the NT EPA may, not later than 21 days after the receipt of a statement:
 - (a) direct the proponent of the proposed action to provide it such other information it considers necessary to facilitate the examination of the statement and specifies in the direction; or
 - (b) request or engage a person or an organisation (being in its opinion suitably qualified) to provide it information in respect of the statement or to make comments, suggestions or recommendations in respect of the statement,

within the period it thinks fit for the purpose of provision of the information or the comments, suggestions or recommendations and specifies to the proponent, the person or the organisation (as the case may be).

- (3) The NT EPA must, within the relevant period:
 - (a) make the assessment report about the proposed action it thinks fit for the protection of the environment; and
 - (b) give a copy of the assessment report to the Minister.
- (3AA) The Minister:
 - (a) may make a written comment in relation to the assessment report; and
 - (b) must give a copy of the assessment report, together with any written comment made by the Minister under paragraph (a), to the responsible Minister.

Notes for subclause (3AA)

- 1 *Under section 8A of the Act, reporting obligations apply to a decision of the responsible Minister in relation to the proposed action.*
- 2 *Under section 8B of the Act, reporting obligations apply if the Minister makes a written comment in relation to the assessment report.*

-
- (3A) The NT EPA shall, by notice in such newspapers circulating in the Territory as it considers necessary:
- (a) advise of the completion of its examination of the statement and the making of the assessment report; and
 - (b) specify a place or places where copies of the statement and the assessment report are available for inspection or purchase.
- (4) For the purposes of this clause, the relevant period shall be:
- (a) 35 days after the receipt under clause 12 of a statement;
 - (b) 35 days after the receipt of information required by a direction, if any, under subclause (2)(a) in respect of the statement; or
 - (c) such longer period as the NT EPA, after consultation with the proponent of the proposed action the subject of the statement, determines,

whichever is the longer.

14A Procedure where proposed action altered

- (1) Where a proponent who has received a notice in writing under clause 8(2), or who has been directed to prepare and submit a report or a statement under clause 8(5)(b), alters the proposed action the subject of the notice or direction, whether prior to commencing it or during the course of executing it, in such a manner that the environmental significance of the proposed action may be changed, the proponent shall:
- (a) as soon as practicable after the alteration, supply the NT EPA and the responsible Minister with details of the alteration; and
 - (b) not execute any part of the proposed action as so altered unless he complies with the direction or notice that the NT EPA gives to him under subclause (3) in respect of the proposed action.
- (2) Where:
- (a) a proponent alters a proposed action which is the subject of a notice under clause 8(2) or a direction under clause 8(5)(b);
 - (b) details of the alteration of the proposed action have not been supplied to the NT EPA and the responsible Minister in accordance with subclause (1); and

-
- (c) the NT EPA forms the opinion that the proposed action has been altered in such a manner that the environmental significance of it may be changed,

the NT EPA may, after consulting with the responsible Minister, direct the proponent to comply with subclause (1).

- (3) Where the NT EPA receives details of an alteration to a proposed action under subclause (1) it shall, in consultation with the Minister and such advisory bodies as it considers appropriate, but not later than 14 days after the receipt of those details, re-consider the environmental significance of the proposed action and by notice in writing to the proponent and the responsible Minister inform them that:

- (a) these administrative procedures are at an end in respect of the proposed action; or
- (b) it has decided that a report or a statement is necessary in respect of the proposed action,

as appropriate on account of the alteration, and the notice shall be complied with and have effect as if a notice under clause 8(2).

- (4) The Minister must give a copy of the notice to the responsible Minister.

15 Review of environmental aspects of proposed actions

- (1) For the purposes of achieving the object of the Act, the NT EPA may, while a proposed action is being executed, or after the proposed action has been executed, review and assess or cause to be reviewed and assessed (whether or not in consultation with advisory bodies) the environmental aspects of that proposed action, including, in particular, the effectiveness of the safeguards or standards for the protection of the environment adopted or applied in respect of that proposed action and the accuracy of the forecasts of the environmental effects of that proposed action.
- (2) The NT EPA shall inform the Minister of the results of a review and assessment under subclause (1) of the environmental aspects of the proposed action and may make comments, suggestions or recommendations concerning safeguards or standards for the protection of the environment for and in relation to the proposed action and future similar proposed actions.
- (3) The Minister must give the information given to the Minister under subclause (2) to the responsible Minister.

16 Public access to assessment information if modified procedures apply

- (1) This clause applies if the modified procedures apply.
- (2) Information about the assessment of a proposed action is available to the public unless the same information would not be available to the public if the proposed action was assessed by the Commonwealth under the *Environment Protection and Biodiversity Conservation Act 1999* of the Commonwealth.
