Part 5 Minimum pricing

Division 1 Application of Part

116 Application of Part

This Part does not apply to the following:

- (a) duty-free liquor;
- (b) the wholesale sale of liquor;
- (c) a liquor product exempted by regulation.

Division 2 Measuring standard drinks

117 Meaning of *standard drink*

A ***standard drink*** is the volume of a liquor product that contains 10 g of ethyl alcohol when measured at 20°C.

118 Number of standard drinks in liquor products

- (1) The number of standard drinks in a liquor product is calculated according to the following formula:

$$SD = V \times ABV \times 0.789$$

where:

SD = the number of standard drinks.

V = volume of the liquor product in litres.

ABV = the alcohol content of the liquor product, expressed as a number equal to the percentage of volume, as indicated on the product label.

Notes for subsection (1)

1 The value 0.789 represents the specific gravity of ethyl alcohol.

2 Some product labels will indicate the number of standard drinks contained in the product container.

Example for subsection (1)

A 250 ml glass of wine from a bottle with the product label showing 6% alcohol content would contain 1.18 standard drinks: $0.25 \times 6 \times 0.789 = 1.18$.

- (2) The number of standard drinks in a liquor product may be determined from its product label, without using the formula in subsection (1), if the label:
- (a) indicates the number of standard drinks in the product; and
 - (b) could reasonably be assumed to be in accordance with the Australia New Zealand Food Standards Code made under the *Food Standards Australia New Zealand Act 1991* (Cth).
- (3) If a liquor product is in a container without a product label that complies with subsection (2), the number of standard drinks in the product may be determined by reference to the compliant product label of an otherwise identical product.
- (4) If subsection (1), (2) or (3) result in different amounts, the lower number is to be used to calculate the minimum sale price.

119 Cocktails and mixed beverages

If a liquor product consists of 2 or more other liquor products, the number of standard drinks in the product is the sum of the number of standard drinks in each component liquor product.

Examples for section 119

1 A licensee offers a "bundle" consisting of 1 bottle of spirits and 12 cans of beer. The number of standard drinks in the bundle is the sum of the number for the spirits and each can of beer.

2 A margarita cocktail comprises 40 ml tequila, 20 ml orange liqueur, lime juice, salt and ice.

0.040 L tequila at 35% alcohol $\times 0.789 = 1.1$ standard drinks

0.020 L orange liqueur at 40% alcohol $\times 0.789 = 0.63$ standard drinks

lime juice, salt and ice – no alcohol content

total standard drinks = $1.1 + 0.63 = 1.73$ standard drinks.

Division 3 Minimum pricing for liquor product

120 Meaning of sale price

- (1) The **sale price** of a liquor product is the amount of money to be paid for the product, including the following:
- (a) any discounts offered or given to the purchaser;

- (b) any refunds offered or given to the purchaser;
 - (c) any amount to be paid for shipping the product to the purchaser.
- (2) For subsection (1), it is immaterial whether a discount or refund is applied at the time of the sale or later, if it is reasonably connected to the sale.

Example for subsection (2)

A licensee sells to a customer a "bundle", consisting of a bottle of spirits and 6 mixers, at a sale price of \$40. The minimum sale price for the bottle of spirits is \$36. The following day, the customer returns the mixers and is given a refund of \$6 (the normal sale price of the mixers). The effective sale price of \$34 for the spirits is below the minimum sale price.

- (3) The sale price does not include shipping charges paid separately by the purchaser to a third party.

121 Minimum sale price

- (1) A liquor product must not be sold, or offered for sale, below the minimum sale price.
- (2) The minimum sale price is \$1.30 for each standard drink contained in the liquor product, or any higher amount specified by the Minister by *Gazette* notice.
- (3) The minimum sale price is indexed, from 1 July 2019, in accordance with the method prescribed by regulation.
- (4) The Minister must review the minimum sale price every 3 years.
- (5) In reviewing the minimum sale price, the Minister must take into account the following:
- (a) the objective of reducing the harmful consumption of liquor;
 - (b) the objective of minimising the effect of the minimum pricing regime on moderate consumers;
 - (c) the purposes of this Act;
 - (d) any other matters the Minister considers relevant.

122 Complimentary drinks

- (1) A licensee may serve up to 2 standard drinks in a day free of charge to a patron.

- (2) Serving drinks in accordance with subsection (1) does not:
 - (a) contravene the requirements for the minimum sale price; or
 - (b) constitute an offence against Division 4.

123 Promotions with non-liquor items

- (1) Subject to subsection (2), the sale price includes the value of other non-liquor items included with a liquor product and sold as a single product.
- (2) The sale price does not include a non-liquor item offered at a discounted rate, or for free, as part of the sale unless:
 - (a) the item is also available to any purchaser who spends at least the same amount on other products, whether liquor or not; or
 - (b) the item is being given away as part of the promotion and is not available for separate sale.

Examples for subsection (2)

- 1 *A promotion offers a set of shot glasses with every bottle of any brand of whiskey costing \$30 or more. Separately the glasses can be purchased for \$10. If the promotion glasses are offered to purchasers of liquor for free, they must be offered free to all customers who purchase \$30 or more of any product, including non-liquor items.*
- 2 *A promotion offers a BDF branded whiskey shot glass with every bottle of BDF whiskey. The shot glass is not available for sale separately. In this case, the glass is not required to be offered to customers who purchase products other than BDF whiskey.*

124 Sale price manipulation

- (1) The Commission may impose a condition under subsection (2) if it believes on reasonable grounds that a licensee:
 - (a) is bundling 2 or more liquor products, or liquor products and non-liquor items, in a way that tends to make the liquor products more attractive than as separate purchases, similar to reducing the sale price of the liquor products below the minimum sale price; or
 - (b) is selling liquor products with non-liquor items at a price that appears to be below the minimum sale price that would apply if the liquor products were purchased separately from the non-liquor items; or
 - (c) is selling liquor products effectively at a price that is less than the minimum sale price of those liquor products by accepting

gift cards, coupons or other tokens of value that can be obtained for a lesser value than the value for which they can be exchanged for liquor.

Example for subsection (1)(a)

A licensee sells a liquor product and food items in a single transaction. The food items are discounted so that the sale price is lowered, with the effect that the minimum pricing requirement for the liquor product is circumvented.

Example for subsection (1)(b)

A licensee offers a bottle of wine containing 7.5 standard drinks for \$6 if the customer also purchases non-liquor items to bring the sale price above the minimum sale price.

Example for subsection (1)(c)

A licensee allows customers to purchase a \$50 gift card for a purchase price of \$25. This card is then accepted by the licensee as payment for 5 bottles of wine priced at \$10 each.

- (2) The Commission may impose any condition it considers appropriate on the licensee's licence or authority, including one or more of the following:
- (a) a condition that liquor products must be sold in a separate transaction from non-liquor items;
 - (b) a condition that every different liquor product must be the subject of a separate transaction;
 - (c) a condition that the licensee is restricted or prohibited from engaging in certain kinds of promotions or giveaways;
 - (d) a condition that the licensee must keep specified records in relation to promotions or giveaways;
 - (e) a condition that the licensee is restricted or prohibited from selling certain non-liquor items below a minimum price as part of the sale of liquor or in a manner connected with the sale of liquor.
- (3) The Commission may attribute a minimum value to an item sold or offered by a licensee as part of the sale of liquor.

Example for subsection (3)

A customer purchases a carton of ZYX beer and receives a \$5 gift card for free. The beer has a minimum sale price of \$30. The Commission could attribute a minimum value of \$5 to the gift card, so that any sale price less than \$35 would be unlawful.

- (4) The Commission must give a decision notice to the licensee as soon as practicable after deciding to impose a condition under subsection (2).
- (5) This section does not affect any powers of the Commission under this or any other Act.

125 Liquor product not precisely identified

- (1) If a liquor product is not precisely identified in a sale or offer, the minimum sale price is to be determined by reference to the liquor product of the highest alcohol content within the same range of liquor products.

Example for subsection (1)

An offer lists a carton of ZYX beer, but ZYX markets two beers with either 4.5% or 7.5% alcohol content. The minimum sale price must be calculated by reference to 7.5% alcohol content, unless the sale identifies the beer as the one with the lower alcohol content – e.g. "ZYX Mid-strength Beer".

- (2) This section does not give rise to a prosecution for an offence against section 126, 127 or 293.

Division 4 Minimum sale price offences

126 Offering liquor product below minimum sale price

- (1) A person commits an offence if:

- (4) If required to use the identification system, a licensee and the licensee's employees:
 - (a) must not disclose or use any information indicated in the system, except in accordance with this Act or another law of the Territory; and

- (4) It is a defence to a prosecution for an offence against subsection (1) or (2) if the defendant has a reasonable excuse.

A reasonable excuse for a contravention might be a failure of the identification system to operate properly for a reason other than the defendant's conduct.
