SCHEDULE 1

SCHEDULE 2

NORTHERN TERRITORY OF AUSTRALIA

Regulations No. 17 of 2005*

Bushfires Regulations

I, EDWARD JOSEPH EGAN, the Administrator of the Northern Territory of Australia, acting with the advice of the Executive Council, make the following regulations under the *Bushfires Act*.

Dated 30 May 2005.

E. J. EGAN
Administrator

By His Honour's Command

C. B. BURNS
Minister for Lands and Planning

* Notified in the *Northern Territory Government Gazette* on 31 May 2005.

PART 1 – PRELIMINARY

1. Citation

These Regulations may be cited as the *Bushfires Regulations*.

2. Definitions

In these Regulations –

"bulk fuel" means petrol, diesel, oil or other fuel, whether solid, liquid or gaseous, stored in bulk;

"fire-break" means an area clear of bush and flammable material.

PART 2 – FIRE PREVENTION AND CONTROL

3. Clearing area to avoid risk of fire

(1) The owner or occupier of land within a fire protection zone must establish and maintain a fire-break at least 4 m wide around any house, caravan, structure, stationary engine, bulk fuel, haystack, cordwood or stacked sawn timber on the land.

Penalty: \$2 500, and \$250 for each day during which the offence continues.

(2) An offence against subregulation (1) is a regulatory offence.

(3) Subregulation (1) does not require the owner or occupier of land to clear bush or flammable material that forms part of a lawn or garden on the land.

4. Avoiding risk of fire when using welding or cutting equipment

(1) A person must not use electric or gas welding or cutting equipment in the open in a fire protection zone or during a fire danger period or fire ban day –

(a) within 4 m of bush or flammable material; and

(b) unless there is readily available a fire extinguishing device in good working order, appropriate to the type of equipment being used and the potential fire hazard.

Penalty: \$2 500, and \$250 for each day during which the offence continues.

(2) An offence against subregulation (1) is a regulatory offence.

5. Lighting or using fire on appliances in vehicles or caravans

For section 38 of the Act, a fire on a gas-burning or spirit-burning appliance within a vehicle or caravan is not a fire in the open to which the conditions referred to in that section apply.

6. Spark arresters

For section 42 of the Act, the equipment for arresting sparks is equipment that –

- (a) effectively prevents the escape of sparks, flame or burning material from the exhaust of a motor vehicle or engine; and
- (b) is in good working order.

7. Fire-break and flammable material warnings and notices

(1) An instrument served under section 47(1) of the Act must be in accordance with Form 1 or 2 in Schedule 1.

(2) An instrument served under section 47(2) of the Act must be in accordance with Form 3 or 4 in Schedule 1.

8. Appeals against refusal to issue permit

(1) A fire control officer or fire warden who determines an application under section 57(2) of the Act by refusing to issue a permit must give the applicant written notice of the refusal.

(2) Within 7 days after receiving the notice of refusal, the applicant may appeal to the Director against the refusal.

(3) After determining the applicant's appeal, the Director must direct a fire control officer or fire warden to –

- (a) issue a permit to the applicant, either conditionally or unconditionally; or
- (b) refuse to issue a permit to the applicant.

PART 3 – INFRINGEMENT NOTICES

9. When infringement notice may be served

If a fire warden reasonably believes a person has committed an offence against a provision of the Act or these Regulations specified in column 1 of Schedule 2, the fire warden may serve an infringement notice on the person.

10. Prescribed amount

The prescribed amount that may be paid, instead of the penalty that may otherwise be imposed, for an offence specified in column 1 of Schedule 2 is the amount specified opposite in column 2.

11. Particulars to be included in infringement notice

- (1) An infringement notice must include the following particulars:
 - (a) the name and address of the alleged offender, if known;
 - (b) the date of the infringement notice;
 - (c) the date, time and place of the offence;
 - (d) the nature of the offence and the prescribed amount payable in respect of that offence;
 - (e) the enforcement agency to whom the prescribed amount is payable.
- (2) An infringement notice must contain the following statements:
 - (a) a statement to the effect that –
 - (i) the alleged offender may expiate the offence and avoid enforcement action under the *Fines and Penalties (Recovery) Act* if he or she pays the prescribed amount to the enforcement agency specified in the infringement notice within 28 days of service of the infringement notice; and
 - (ii) if the alleged offender pays the prescribed amount within the period specified in the infringement notice, the enforcement agency will take no further action in relation to the offence;
 - (b) a statement to the effect that if the alleged offender does not pay the prescribed amount within the period specified in the infringement notice and does not serve on the enforcement agency specified in the infringement notice a statement of election to have the matter dealt with by a court (as contained in the infringement notice), unless the infringement notice is withdrawn –
 - (i) the *Fines and Penalties (Recovery) Act* will apply and the alleged offender may be served with a courtesy letter in accordance with that Act requiring payment of the prescribed amount together with the costs in respect of the issue of that letter; and

- (ii) if the alleged offender does not make the payment as required by a courtesy letter, enforcement action may be taken against him or her under the *Fines and Penalties (Recovery) Act* which, after due process, may result in the suspension of the alleged offender's licence to drive, the seizure of property, the deduction of wages or salary, the registration of a statutory charge on land, a community work order or imprisonment if a community work order is breached;
- (c) a statement to the effect that the alleged offender may elect under section 21 of the *Fines and Penalties (Recovery) Act* to have the matter dealt with by a court instead of under the *Fines and Penalties (Recovery) Act* by completing a statement of election (as contained in the infringement notice) and serving it on the enforcement agency specified in the infringement notice;
- (d) a statement of election, for completion by the alleged offender if he or she elects to have the matter dealt with by a court, that includes the information required by regulation 7(1) of the *Fines and Penalties (Recovery) Regulations*.

12. Expiation of offence

(1) If an alleged offender pays the prescribed amount specified in an infringement notice in accordance with the notice, the alleged offender is taken to have expiated the offence and no further proceedings are to be taken in respect of the offence.

(2) If an alleged offender tenders a cheque in payment of a prescribed amount, the amount is not taken to have been paid unless the cheque is cleared on presentation.

13. Withdrawal of infringement notice

An infringement notice may be withdrawn at any time within 28 days after it is served, but before payment of the prescribed amount specified in the infringement notice, by serving on the alleged offender a notice –

- (a) signed by the Chief Fire Control Officer or a person on behalf of the enforcement agency specified in the infringement notice; and
- (b) stating that the infringement notice is withdrawn.

14. How service effected

Service of an infringement notice or notice of withdrawal of an infringement notice is effected –

- (a) by serving it personally on the alleged offender;
- (b) by posting it to the alleged offender at his or her last known address; or
- (c) by leaving it for the alleged offender at his or her last known place of residence or business with a person apparently resident or employed there and apparently not less than 16 years of age.

15. General

This Part –

- (a) does not prevent more than one infringement notice in respect of the same offence being served on an alleged offender, but it is sufficient for the application of regulation 12 to an alleged offender on whom more than one infringement notice has been served for the alleged offender to pay the prescribed amount in accordance with any one of those notices;
 - (b) does not limit the penalty that may be imposed by a court for an offence; and
 - (c) does not require an infringement notice to be served and does not affect the liability of a person to be prosecuted in a court for an offence in respect of which an infringement notice has not been served.
